## MONEY, BONDS AND STOCKS.

As Active Market in New York, with Transactions Confined to a Few Stocks. NEW YORK, Oct 22 .- Money on call was easy at 2@24 per cent., the last loan being made

at 24; closing offered at 2 Prime mercantile paper, 4127 per cent. Sterling exchange was dull but steady at 34.8 for sixty-day bills and \$4.877 for demand.

The sales of stocks for the day aggregated 311,-894 shares, including the following: Delaware, Luckawanna & Western, 3,900; Erie, 4,402; Lake Shore, 5,096; Missouri Pacific, 34,735; Northwestern, 14,955; Northern Pacific preferred, 12.025; Oregon Transcontinental, 8,220; Reading. 15,960; Richmond & West Point, 59,105; St. Paul, 15,555; Union Pacific, 52,970; Western Union, 11,971.

The stock market, to-day, was again active, though the principal interest in the speculation was centered in three stocks, which contributed about one-half the entire business done. The general drift of prices was downward, though, with a few exceptions, the fluctuations were for fractions only, and the final changes are for insignificant amounts. Missouri Pacific, although not the most active stock on the list, was the leader of the market, and again was very weak. The leterview with Mr. Gould, published this morning, had a temporary reassuring effect upon the list, but the "bears," aided by the trading element, made a sudden attack upon the stock of the Southwestern system, and they yielded readily, carrying the rest of the list with them, though to a limited extent only. The dealings in Missouri Pacific were attended by neiderable excitement, and as several stop orders were reached on the way down, the break extended to nearly 4 points before a halt was called, and it was suspected that some of the insiders were unloading. San Francisco second preferred lost 3 per cent., Pullman a like amount, and the movement extended to the grangers, although in none of them did the loss exceed 11. The price of the Union Pacific was well held on the prospects of a dividend and the well-known good financial condition of the property, and, although the stock was extremely active, its extreme fluctuation was but a little over a point. The strong point in the list was preferred rose over 3 per cent. on the recently obtained control of the Georgia Central. Atchison was seld off in the early morning, and this started the selling in Missouri Pacific. New England also suffered somewhat, but the stock at no time was prominent in the market. East Tennessee firsts preferred also made a spurt in the last hour, when the greater portion of the advance was made in Richmond & West Point. The firm feeling at the opening made first prices from | to | per cent. higher than the final figures of Saturday, and further slight advances were established in the early trading; but the "bears" soon began their attack, and, while the Richmond & West Point stocks were strong, Missouri Pacific began to yield and the rest of the list sympathized. After the first hour there was more animation and the weakness became more decided. San Francisco, Puliman, Burlington and Rock Island all showed special weakness. There was a raily after noon, but the decline was soon renewed and the lowest prices of the day generally were reached toward 2 P. M. The strength in the terminal stocks caused some reaction in the last hour, but the market closed weak at close to the lowest figures. The final changes are almost all in the direction of lower prices, and although Richmond & West Point rose I per cent and the preferred 21 per cent, Missouri Pacific and Pullman are down 3 per cent each, Northwestern 11, and Burlington and Rock Island 1 per cent.

The railroad-bond market was dull to-day, though the sales of all issues reached \$1,147,000; but there was no animation anywhere in the list, and very little feature of any kind. There was a steady to firm tone throughout; the final changes are irregular, though they are generally for small fractions only. The important advances include Brooklyn firsts. 1, to 10% Knoxville & Ohio firsts, 14, to 103; Milwaukee, Lake Shore & Western firste, 1, to 119; North Missouri firsts. 1; to 116; and Green Bay incomes, 1, to 32. The losses included Burlington, Cedar Rapide & Northern firsts, 2, at 92, and Erie

funded coupons, 2, at 92. Government bonds were dull, but firm.

CHICAGO, Oct. 22 .- The dealing in wheat was again unsettled and nervous. On the whole, trading was light, and the market would have assumed a much quieter feeling but for the operations of a few large local operators. Trading in December, in particular, was very light, and chiefly in the way of settlements. Operations were confined principally to May, in which month traders feel less fear of manipulation. The speculative offerings for May were quite large at times, and credited mainly to a prominent local trader who has figured conspicuously on the "bull" side. December lopeued to lower than Saturday's closing price, advanced to, receded 2c, and closed to above the lowest. May fluctuated between to above and 1tc below Sat urday's final prices, and closed ic Only a moderate trade was reported in corn. The feeling generally was easier, the influence on the market being almost entirely of a "bearish" character. Opening sales were about to lower than the closing prices of Saturday, and gradually sold off 12c, recovered & became steady, and closed to lower for near futures, and December to lower than Saturday. The speculative market for oats was very quiet. May delivery was inclined to be slightly weaker, but near futures were steady, and the general market failed to show much change. The market for mess pork attracted January and May deliveries. were fair and the demand was spasmodically active. Prices fluctuated considerably and were advanced 10@15c on the whole range, though outside figures were not fully maintained. Trading was only fair in the lard market, but the feeling was stronger. Speculative offerings were only moderate, and there was no particular demand from any source. Prices ruled slightly higher and the market closed steady. Rather light trading was reported in short-rib sides, mainly for January delivery. The feeling was firmer, and prices ruled 24 &5c higher early, but settled back near the close. The leading futures ranged as fol-

MINNEAPOLIS, Oct. 22.-Wheat-The 800 cars of wheat received here had a weakening effect on prices, but sellers were firm in asking previous quota-tions, and the best grades were picked up quite readily. Outside speculative markets were depressed by ilbera local receipts and trading in cash wheat had received a slight set back about noon. Sample tables were not piled very high with offerings, cons dering the large receipts, and local millers were doing most of the buy-ing, though a few orders were being filled for Wisconsin mills. Shipments were 53 cars, and Duluth reported 107 cars on track. INDIANAPOLIS MARKETS. The Almost Constant Rain and Deep Mud Unfavorably Affecting Trade.

INDIANAPOLIS, Oct. 22. It was another off day in the local market, owing to the rain and wretched condition of the country roads. The duliness is doubtless but temporary as the conditions are otherwise favorable. Prices to-day were firm all along the line. In groceries, sugars, coffees and canned goods all have an upward tendency; in fact, all staple articles are firm in tone. The New York

Shipping List says of coffees:
"The course of the coffee market during the past six weeks has been so contrary to the expectation of a very large portion of the trade that a brief review of the situation, together with a consideration of the influences that have been most potent in its development, may prove of interest at the present time. Starting with the fact that a phenomenally small crop in Brazil was to be followed by one of unequaled proportions, the trade ever since then has been confidently looking for lower prices, but, with the exception of a few unimportant fluctuatians, the market has been gradually but steadily advancing, and to-day prices are 4.45c higher for options, and 2.75c higher for invoice than on the first of July last, when the crop year commenced. This advance has not been due to speculative manipulation, however much speculative trading may have contributed towards developing the strength of the situation and stimulating the upward movement, but it is rather the natural result of the operation of the law of supply and demand. All the consuming markets of the world have been affected alike, and from whatever position the situation is viewed it shows the same elements of natural and inherent strength."

The produce markets were moderately active for Monday. Choice apples are meeting with better sale at a shade firmer prices. The same remark will apply to potatoes, although the supply of both Irish and sweet is in excess of the demand. Cranberries are in light supply, and choice stock is higher, bringing \$9 per barrel. Poultry is firmer, chickens advancing to per pound. Receipts of eggs are light, and prices are hardening daily. Butter is steady, with fair receipts for the sesson. The provision market is firmer than last week; stocks are low, and good prices for hogs are indicated. Other markets are steady, and as a rule prices firm.

There was a fair attendance on 'Change today. Wheat was in a stronger position than on Saturday, with a good demand for all choice milling grades. Corn ruled easier, and, on account of heavy arrivals, white grades were dull.

The Oatmeal Question.

Good Housekeeping. You can get all the opinion you want on both sides of a question nowadays. Oatmeal had not long been reputed to be a healthful food, when some physician arose to deny it and to assert that it produced dyspepsia. Allowance is always to be made in such a question for the variations of human stomache and constitutions, so that what may be a good food for one person may not be for another. The truth about catmeal for the generality of persons (and they are the only persons you can speak for) is that if it is eaten in only a partially cooked condition, it is not bealthful; and neither is flour, corn-meal and many other articles of food. Indigestion and acidity of stomach are caused for some people by the esting of sugar or other sweets on oatmeal, and they get the same effect if they eat these sweets on rice or bread. Cream, too, may be too much fat for a sensitive stomach, if put on ostmeal. In these cases it is not the oatmeal, but either its insufficient preparation or the addition of an improper food, that causes the stomach trouble. If a person will eat a moderate amount of oatmeal, cooked and prepared as his needs may demand, there can be no question that it is healthful, digestible and

highly nutritious. Brown's Expectorant is the sure remedy for coughs, colds, hoarseness, etc. Ask your druggist for it. Price 50 cents.
